November 27, 2017
Troy Day, V.P. Operations
EPCOR Water (USA) Inc

Dear Mr Day,

The New River/Desert Hills Community Association board of directors is unanimously in favor of EPCOR signing a lease with the Anthem Community Council for the one acre parcel (plus or minus), on the north side of Desert Hills Drive, just west of the Skunk Creek in Desert Hills Arizona. (I am working with DVUSD and McDOT regarding possible safety issues.)

We understand that this is a temporary solution for an immediate potable water supply, for the homes in New River and Desert Hills (needing hauled water now and in the future) until such time that a DWID can implement a permanent solution.

We also understand that you will need about six months to construct a water filling station for water haulers. In a letter distributed to the water haulers in our area, the City of Phoenix made it clear that they will be cutting off the water supply on December 31, 2017. Our hopes are that the Phoenix Water Department will grant an extension (based on your letter of intent and lease with Anthem), for the time needed to construct the new water station and have it operational.

Respectfully submitted,

Alan Muller, President
NRDHCA
